

ACADEMIC PLAN & APPROVAL FORM

FOR STUDY ABROAD

HEY! Are you going on a KU internship or faculty-led program?
Students on KU internships & faculty-led programs do not need to fill out this form.

BEFORE YOU START:

- Meet with your academic advisor (undergrad students) or director of graduate studies (grad students) to discuss your degree plan and courses you need to take while abroad.
- Meet with a KU study abroad program coordinator to discuss program options and foreign course availability.
- Choose your study abroad program and start the application.

START: Research Course Options Abroad

- Using course catalogs/lists found on your study abroad program's webpage and the course database, research and select courses.
- You must meet all pre-requisites for both foreign courses and the KU equivalent course.
- Not all foreign courses may be available; list several back-up options.
- Summer: Undergrad students take the equivalent of 3-12 credit hrs.
Grad students take the equivalent of 3-6 credit hrs.
- Semester: Undergrad students take the equivalent of 12-18 credit hrs.
Grad students take the equivalent of 9-12 credit hrs.

NEXT STEPS:

STATEMENT OF UNDERSTANDING: **To be signed only after pages 2 through 4 are completed.*

1. I understand that all courses taken abroad and all grades received must be posted on my official KU transcript.
2. Courses designated as "APPROVED equivalency" on the course equivalency database do not require approval by the academic unit. It is my responsibility to have all other courses approved by the relevant academic unit for each course I plan to take abroad.
3. I must inform my academic advisor or director of graduate studies and my KU study abroad program coordinator of any changes in course choice or course content before finalizing enrollment.
4. I have discussed these plans with my academic advisor or director of graduate studies and have familiarized myself with all degree and major requirements.
5. If I intend to finish all degree requirements while abroad, I have consulted with the appropriate graduation official and have spoken to my study abroad program coordinator and academic advisor to know what arrangements must be made before going abroad.
